ANTH 202: INTRO TO ARCHAEOLOGY
An introduction to basic theory and methods in the archaeological recovery and interpretation of past cultural remains.

Online Maymester
Instructor: Dr. Barbara Borg
CRN#30762

ANTH 329: ST: INDESTRUCTIBLE MAYA
Most students associate the term "Maya" with an ancient Middle American culture that had a high civilization, produced a written language, built pyramids, and attained significant accomplishments in mathematics and astronomy. Many believe these people disappeared long ago, and few realize that there are millions of Maya people speaking many different languages living in Mexico and Central America today. The Maya are so numerous today because their indigenous population was so large before the Spanish conquest of Guatemala and Mexico. Not even 600 years of war, slavery, epidemic disease, poverty, and discrimination have been able to wipe them out! This course will examine these vibrant Maya peoples from ancient times to the present.

Online Extended Summer
Instructor: Dr. Barbara Borg
